Q 1 Three different positions X, Y and Z of a dice are shown in the figures given below. Which number lies at the bottom face in position X?

X

Y

Z

- (A) 2
(C) 6

(B) 3

(D) Can't be determined

Q 2 Two positions of a block are given below. When 1 is at the top, which number will be at the bottom?

- (A) 2
(C) 4

- (B) 3
(D) 6

Q 3 What number is opposite of 3 in the figure shown below? The given two positions are of the same dice and each surface of the dice bear a number among 1, 2, 3, 4, 5 and 6.

- (A) 2
(C) 5

- (B) 4
(D) 6

Q 4 Among the given figures, find the figure which is of STANDARD Dice?

(A)

(B)

(C)

(D)

Q 5 Two positions of a dice are shown below. Identify the number at the bottom when the top is '3'?

Q 6 **Directions: (6 to 10):** Read the following information carefully and answer the questions that follow.

A cube is colored blue on all faces. Three cuts are given on each edge to form smaller cubes of equal size. Now, answer the following questions based on this statement.

How many smaller cubes are formed?

- (A) 96
(C) 16
- (B) 27
(D) 64

Q 7 **Directions: (6 to 10):** Read the following information carefully and answer the questions that follow.

A cube is coloured blue on all faces. Three cuts are given on each edge to form smaller cubes of equal size. Now, answer the following questions based on this statement.

How many cubes have no face coloured?

- (A) 24
(C) 0
- (B) 8
(D) 16

Q 8 **Directions: (6 to 10):** Read the following information carefully and answer the questions that follow.

A cube is coloured blue on all faces. Three cuts are given on each edge to form smaller cubes of equal size. Now, answer the following questions based on this statement.

How many cubes are there which have only one face coloured?

- (A) 24
(C) 4
- (B) 16
(D) 8

Q 9 **Directions: (6 to 10):** Read the following information carefully and answer the questions that follow.

A cube is coloured blue on all faces. Three cuts are given on each edge to form smaller cubes of equal size. Now, answer the following questions based on this statement.

How many cubes have two blue opposite face?

- (A) 8
(C) 24
- (B) 16
(D) 0

Q 10 **Directions: (6 to 10):** Read the following information carefully and answer the questions that follow.

A cube is coloured blue on all faces. Three cuts are given on each edge to form smaller cubes of equal size. Now, answer the following questions based on this statement.

How many cubes have three faces coloured

- (A) 16
(B) 24
