[MCQ]

#Q. There are six teachers A, B, C, D, E and F in a school. Each of the teachers teaches two subjects, one compulsory subject and other optional subject. D's optional subject was History while three others have it as compulsory subject. E and F have Physics as one of their subjects. F's compulsory subject is Mathematics which is an optional subject of both C and E. History and English are A's subjects but in terms of compulsory and optional subjects, they are just reverse of those of D's. Chemistry is an optional subject of only one of them. The only female teacher in the school has English as her compulsory subject.

#Q. A Cube was painted on one of the opposite pair faces as WHITE & remaining four faces as GREEN. Five cuts were given on each edges to form smaller Cubes of equal size.

1. ➤ How many cubes will be formed?
2. ➤ How many cubes will have no face painted at all?
3. ➤ How many cubes will have only one face painted?
4. ➤ How many cubes will have only two face painted, but with same colour?
5. ➤ How many cubes will have only two face painted, but different colour?
6. ➤ How many cubes will have atleast two face painted?
7. ➤ How many cubes will have three face painted?
