[MCQ]

[GATE-CE-2019:2M]

“The increasing interest in tribal characters might be a mere coincidence, but the timing is of interest. None of this, though, is to say that the tribal hero has arrived in Hindi cinema, or that the new crop of characters represents the acceptance of the tribal character in the industry. The films and characters are too few to be described as a pattern.”

What does the word ‘arrived’ mean in the paragraph above?

- (a) ✗ reached a terminus
- (b) ✗ came to a conclusion
- (c) ✓ attained a status
- (d) ✗ went to a place

mere

[MCQ]

[GATE-ME-2017:2M]

"If you are looking for a history of India, or for an account of the rise and fall of the British Raj, or for the reason of the cleaving of the subcontinent into two mutually antagonistic parts and the effects this mutilation will have in the respective sections, and ultimately on Asia, you will not find it in these pages; for though I have spent a lifetime in the country. I lived too near the seat of events, and was too intimately associated with the actors, to get the perspective needed for the impartial recording of these matters."

Which of the following is closest in meaning to 'cleaving'?

- |                   |                                                   |
|-------------------|---------------------------------------------------|
| (a) Deteriorating | (b) Arguing                                       |
| (c) Departing     | (d) <input checked="" type="checkbox"/> Splitting |

3. Detachment towards the  
Passage

4. Always, indeed, only gone, last-next.  
a, soon, etc

## Topic: Passage 1

The Earth's climate has undergone many changes in its history, but the pace of current changes appears to be unprecedented. Rising CO<sub>2</sub> levels due to human anthropogenic activities are closely linked to global warming. While natural factors have played a role in the past, recent patterns suggest human actions are the dominant force.

Based on the passage, which of the following best describes the current climate change?

- ☒ A. Entirely natural and cyclic
- ☒ B. Unprecedented and mostly anthropogenic
- ☒ C. Similar to past climate cycles
- ☐ D. Negligible in impact

## Topic: Passage 1

The Earth's climate has undergone many changes in its history, but the pace of current changes appears to be unprecedented. Rising CO<sub>2</sub> levels due to anthropogenic activities are closely linked to global warming. While natural factors have played a role in the past, recent patterns suggest human actions are the dominant force.

Based on the passage, which of the following best describes the current climate change?

- A. Entirely natural and cyclic
- B. Unprecedented and mostly anthropogenic
- C. Similar to past climate cycles
- D. Negligible in impact

## Topic: Passage 2

Justice is often viewed as a system of fairness, but fairness does not always lead to justice. For instance, equal distribution of resources may be fair but may not serve justice if the needs of individuals vary significantly.

According to the passage, what is the relationship between fairness and justice?

- ~~A.~~ They are the same  $\rightarrow \times$  
- ~~B.~~ Justice requires fairness in all cases
- ☒ C. Fairness does not always result in justice
- ~~D.~~ Justice is irrelevant in resource distribution 

## Topic: Passage 2

Justice is often viewed as a system of fairness, but fairness does not always lead to justice. For instance, equal distribution of resources may be fair but may not serve justice if the needs of individuals vary significantly.

According to the passage, what is the relationship between fairness and justice?

- A. They are the same
- B. Justice requires fairness in all cases
- C. Fairness does not always result in justice
- D. Justice is irrelevant in resource distribution

## Topic: Passage 3

Machine learning algorithms can analyze vast datasets quickly, uncovering patterns invisible to humans. However, the risk of bias in training data can lead to flawed conclusions, especially in high-stakes applications like hiring or policing.

The passage suggests that machine learning systems:

*Human is not referred*

- A. Eliminate human bias (X)
- B. Can process data but may perpetuate bias ✓
- C. Are ideal for decision-making in all areas (X)
- D. Always give more accurate results than humans (X)

## Topic: Passage 3

Machine learning algorithms can analyze vast datasets quickly, uncovering patterns invisible to humans. However, the risk of bias in training data can lead to flawed conclusions, especially in high-stakes applications like hiring or policing.

The passage suggests that machine learning systems:

- A. Eliminate human bias
- B. Can process data but may perpetuate bias
- C. Are ideal for decision-making in all areas
- D. Always give more accurate results than humans

## Topic: Passage 4

Inflation affects the purchasing power of money. While moderate inflation can indicate a growing economy, hyperinflation often destabilizes it. Governments often intervene by adjusting interest rates to maintain economic balance.

Which of the following can be inferred from the passage?

- A. Inflation always benefits the economy ☒
- B. Government intervention is unnecessary ☒
- C. Interest rates can be used to control inflation ☒
- D. Hyperinflation improves purchasing power ☒

## Topic: Passage 4

Inflation affects the purchasing power of money. While moderate inflation can indicate a growing economy, hyperinflation often destabilizes it. Governments often intervene by adjusting interest rates to maintain economic balance.

Which of the following can be inferred from the passage?

- A. Inflation always benefits the economy
- B. Government intervention is unnecessary
- C. Interest rates can be used to control inflation
- D. Hyperinflation improves purchasing power

## Topic: Passage 5

The Industrial Revolution marked a turning point in history. It not only transformed economies but also led to profound social changes. Urbanization increased, but so did labor exploitation and environmental degradation.

Which of the following is NOT a consequence of the Industrial Revolution, as per the passage?

- A. Increased urbanization ✓
- B. Labor exploitation ✓
- C. Environmental conservation ✗
- D. Economic transformation ✓

## Topic: Passage 5

**The Industrial Revolution marked a turning point in history. It not only transformed economies but also led to profound social changes. Urbanization increased, but so did labor exploitation and environmental degradation.**

Which of the following is NOT a consequence of the Industrial Revolution, as per the passage?

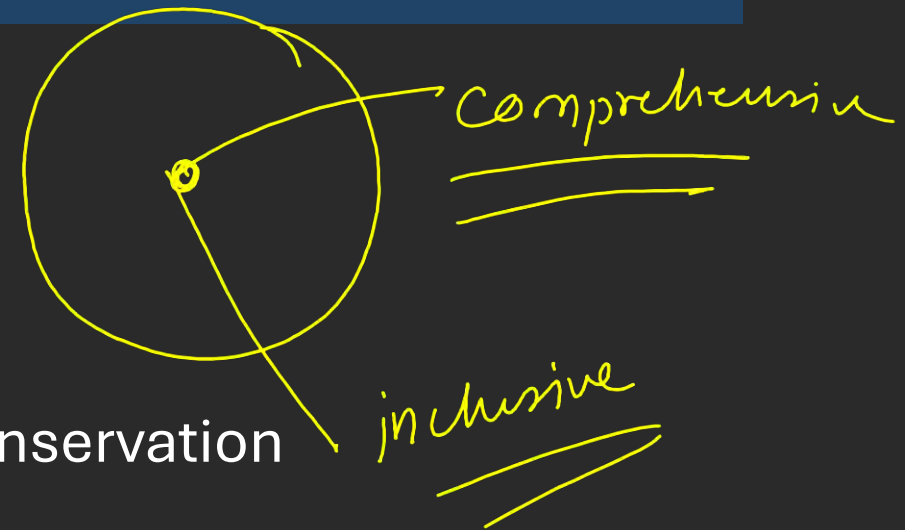

- A. Increased urbanization
- B. Labor exploitation
- C. Environmental conservation
- D. Economic transformation

## Topic: Passage 6

Pollinators like bees and butterflies play a vital role in ecosystem balance. A decline in their population can disrupt food chains and reduce crop yields. Conservation efforts are thus essential for sustainable agriculture.

What is the central theme of the passage?

- A. Bees produce honey ☒ Specification
- B. Butterflies are attractive pollinators ☒
- ✓ C. Pollinators are crucial for agriculture and need conservation
- D. Crop yields depend only on soil quality ☒

## Topic: Passage 6

Pollinators like bees and butterflies play a vital role in ecosystem balance. A decline in their population can disrupt food chains and reduce crop yields. Conservation efforts are thus essential for sustainable agriculture.

What is the central theme of the passage?

- A. Bees produce honey
- B. Butterflies are attractive pollinators
- C. Pollinators are crucial for agriculture and need conservation
- D. Crop yields depend only on soil quality

## Topic: Passage 7

Language is more than a tool for communication; it shapes how we perceive reality. Different languages encode concepts differently, influencing cognition. For example, some languages have multiple words for snow, reflecting its importance in those cultures.

*perception*

According to the passage, language:

- A. Has no effect on perception ~~X~~
- B. Is only a means of communication ~~X~~
- C. Influences thought and perception ✓
- D. Is uniform across cultures ~~X~~

## Topic: Passage 7

Language is more than a tool for communication; it shapes how we perceive reality. Different languages encode concepts differently, influencing cognition. For example, some languages have multiple words for snow, reflecting its importance in those cultures.

According to the passage, language:

- A. Has no effect on perception
- B. Is only a means of communication
- C. Influences thought and perception
- D. Is uniform across cultures

## Topic: Passage 8

Despite growing awareness of environmental issues, individual action often lags behind intention. People express concern for climate change but continue to engage in activities that are clearly detrimental to the environment. This disparity is often attributed to what psychologists call the 'value-action gap'—the disconnect between what people value and how they actually behave.

What is the meaning of the word 'disparity' in the context above?

- A. Agreement — X
- B. Difference ✓
- C. Communication — X
- D. Concern — X

## Topic: Passage 8

Despite growing awareness of environmental issues, individual action often lags behind intention. People express concern for climate change but continue to engage in activities that are clearly detrimental to the environment. This disparity is often attributed to what psychologists call the 'value-action gap'—the disconnect between what people value and how they actually behave.

What is the meaning of the word 'disparity' in the context above?

- A. Agreement
- B. Difference
- C. Communication
- D. Concern

## Topic: Passage 9

Innovation rarely thrives in environments that discourage risk. When failure is punished, rather than seen as a step toward improvement, creativity is stifled. Organizations that reward experimentation and allow room for mistakes tend to foster more innovative ideas and long-term success.

The word 'stifled' in the passage is closest in meaning to: -

A. Encouraged ☒

B. Opposed ☒

C. ~~Suppressed~~ ☒

D. Celebrated ☒

## Topic: Passage 9

Innovation rarely thrives in environments that discourage risk. When failure is punished, rather than seen as a step toward improvement, creativity is stifled. Organizations that reward experimentation and allow room for mistakes tend to foster more innovative ideas and long-term success.

The word 'stifled' in the passage is closest in meaning to:

- A. Encouraged
- B. Opposed
- C. Suppressed
- D. Celebrated

## Topic: Passage 10

Social media has transformed not just the way people communicate, but also how opinions are shaped. The algorithms that govern content delivery are often opaque, amplifying voices that align with users' preferences and reinforcing existing biases. In this echo chamber, opposing viewpoints are rarely encountered.

The word 'opaque' in the context above means:

- A. Unclear or not transparent ✓
- B. Bright and noticeable
- C. Weak or powerless — (X)
- D. Well-organized (X)

## Topic: Passage 10

Social media has transformed not just the way people communicate, but also how opinions are shaped. The algorithms that govern content delivery are often opaque, amplifying voices that align with users' preferences and reinforcing existing biases. In this echo chamber, opposing viewpoints are rarely encountered.

The word 'opaque' in the context above means:

- A. Unclear or not transparent
- B. Bright and noticeable
- C. Weak or powerless
- D. Well-organized

The background is a dark, textured surface with faint, light-colored gear patterns. A large, bright yellow rectangular card with rounded corners is the central focus. On the left side of the card, a purple rocket with a blue flame is launching upwards, leaving a white smoke trail. A white paperclip is attached to the top left corner of the card. On the right side, a large, detailed orange pencil with a black eraser and a sharp lead tip is positioned vertically. Various small icons are scattered around the card: a clock face at the top right, a plus sign, a lightbulb with a yellow star inside, a wavy line, a steering wheel, and several gears of different sizes. At the bottom left of the card, there are icons of a gear, a bolt, and a nut. The text 'Thank You!' is written in a large, bold, black sans-serif font in the center of the yellow card.

**Thank  
You !**
